REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Nelson:

I submit herein my fifth annual report as superintendent of schools.

A good school gives not only mental training, physical development and righteous morals but also good habits of study, work and living. Indeed, we must continue to place strong emphasis on the oldfashioned word "work."

To enable the pupils in our rural schools to read comprehensively, to spell correctly, to write legibly and clearly and to talk intelligently is the paramount issue. If these fundamental subjects are thoroughly mastered, mental alertness in numbers and cultural growth in geography, history, civics, etc., will easily follow.

I believe your teachers have had these goals of attainment in mind during the past year. To attain these results, they have used pedagogical methods. When questions of discipline have arisen, careful consideration has been given, prompt and decisive action taken by your teachers. Indeed, we believe in a strict and impartial school government, such as a wise judicious and faithful parent would exercise in the family and which will unfold in every child the best qualities and stimulate in him the highest principles and purposes. Schools are created for the pupil and their aim is to educate the young for fitness in life and its realities, and to do this, thorough discipline must be maintained.

Promotions were based on results of following tests:

Ayre's scale in writing and spelling, and Stanford's Achievement test. These were supplemented by tests given by the teachers, superintendent and by a generous consideration

of the daily work of the individual pupil throughout the year.

On this basis, the following number of pupils were promoted in the respective schools:

Grades,	I	II	III	IV	V	VI	VII	VIII
Munsonville,		1		1	3	3		2
Center,			1	2		1	4	
Totals,	0	1	1	3	3	4	4	2

TEACHERS FOR YEAR 1926-1927

Munsonville, Mabel E. May.

Center, Vera E. White.

Statistics generally afford dry reading but they are often suggestive and illuminating if carefully studied.

Consulting the table of statistics for the year 1926-1927, you will see that your schools maintained a fairly good record in average attendance but the tardy marks were a little excessive considering the number of pupils registered.

The average attendance exceeded by a small margin the average attendance of the supervisory district and that of the state. Yet there is a chance for improvement. Let us aim to make it this present year. Too many absentees and too many cases of tardiness ought to compel every parent to ask himself, "Am I responsible?"

Regularity and punctuality in attendance are business virtues and are essential to a good school.

At the Munsonville school, Miss May continued her thorough instruction and effective work throughout the year 1926-1927.

At the Center school, Miss Vera White closed a successful year.

Beginning with September of the present year, Miss May continues her service at Munsonville and Mrs. Hazel Jackson, a teacher of the Center school for several years previ-

ous to last year, returned to this school for the present year.

At the time of writing, both schools are running smoothly, doing effective work and give promise for a successful year.

In conclusion, I wish to acknowledge the cordial co-operation of teachers, the assistance and help of the school board and the hearty support of parents and citizens.

Respectively submitted,

FREDERICK T. JOHNSON,
Superintendent of Schools.

Marlborough, N. H., Feb. 9, 1928.
